

气垫带式输送机

Air Support Belt Conveyor

低能耗

节能≥35%

易于维护

减少维护频次与时间

高性能

输送效率更高、输送距离更远，陡角与自我支持体系结构

低噪音

提高工作场所安全度，减少健康危害

保护环境

高效经济，节能环保

Low Power

- Save up to 35% on horizontal applications.

Less Maintenance

- Simplified operation greatly reduce the need for repair and part replacement.

Better Performance

- Increased conveying efficiency and distance at steeper angles with self-supporting architecture.

Low Power

- Increase workplace safety and reduce health hazards with air supported conveying.

Our Environment

- GSS's reliable and cost-effective air supported belt conveyors are the environmentally-sound alternative.
